PROFILE

I am a dedicated Computer Science student with a strong foundation in Java-based technologies and full-stack web development. My experience spans developing scalable APIs, handling backend tasks using JAX-RS, and providing technical support in high-demand environments. With hands-on experience in Android development and working knowledge of JSP and servlets, I am committed to continuous learning and leveraging my skills to solve complex problems. I am particularly passionate about building robust and efficient software solutions that meet real-world needs.

EXPERIENCE

Ministry of Science and Technology, Programming Group IT Intern (February 2024 - Present)

- Developed API for a student management application using JAX-RS project available at (https://kayodeo1.github.io/LSMNT-SMA-Api.git)

Ikeja Electric Help Desk Personnel & Application Unit Intern (October 2023 - January 2024)

- Provided help desk support.
- Performed Java programming tasks.
- Gained experience with servlets and JSP.

CTY group of schools Web Development Instructor (july 2023 - September 2023)

- Introduced the students to web development concept.
- Introduced the students to front end technologies (HTML,CSS).
- Built a static website with the students project available at (https://kayodeo1.github.io/ctygroupof).
